INFORMATION DISCLOSURE STATEMENT

This application is the parent of a continuation-in-part of U.S. patent application no. 09/593,647. The '647 application is on the docket of Examiner Dwin Craig of Art Unit 2123. A final Office action is outstanding, rejecting claims 3-6 and 17 based on 35 U.S.C. §112, second paragraph. No prior art rejections are outstanding. The remaining claims 2, 7-10 and 15 are allowed.

Copies of the Office action and pending claims in the '647 application are submitted herewith. The prior art of record in the '647 application is already of record in this application.

This application is also related to U.S. application no. 10/286,095, although there is no formal relationship under 35 U.S.C. §120. The '095 application matured into U.S. Patent No. 7,257,467 on August 14, 2007. A citation to this patent is listed on the enclosed Form PTO-1449.

Pursuant to 37 CFR 1.97 and 1.98, the reference listed on the enclosed Form PTO-1449 ("Form 1449") is submitted for consideration by the Examiner in the examination of the above-identified patent application.

The full consideration of the reference in its entirety by the Examiner is respectfully requested and encouraged. Also, it is respectfully requested that the reference be entered into the record of the present application and that the Examiner initial the appropriate area on the enclosed Form 1449, thereby indicating the Examiner's consideration of the reference.

The submission of the reference listed on the Form 1449 is for the purpose of providing a complete record and is not a concession that the reference listed thereon is prior art to the invention claimed in the patent application. The right is expressly reserved to establish an invention date earlier than the above-identified filing date.

Further, the submission of the reference is not to be taken as a concession that the reference represents art that is relevant or analogous to the claimed invention. Accordingly, the right to argue that the reference is not properly within the scope of prior art relevant to an examination of the claims in the above-identified application is also expressly reserved.
